SUMMARY

• I have five years' experience in developed mobile app cross-platform in the fields of sales, ordering, utilities, warehouse management, reporting, e-commerce, blockchain,... I also have one year of experience in programming backend & frontend website. I'm a good team player with high responsibility. I am very interested in all-in-one payments, especially blockchain technology. Looking forward to hone in the field of web and full-stack dev orientation in the future.

KNOWLEDGE

Google Firebase
Firebase Android development member
- Android software development organization.
- Application development for high-class restaurants readTime firebase.
Join the community Vlance:
- participate in project development flutter find room.
- Flutter WebRTC live stream video.
- Flutter plugins native switch ios and java android
- React-Native switch and java modules
- CI/CD Github action to deploy applications on App Sore and Ch play

SKILLS

• App Developer (Android - Java, kolink, Flutter - Dart, RN - js,ts,..) Website (Nodejs, Php Laravel, SQL).

• Analyse system's structure, write documentation, diagram related to system and application flow. (Use case, Sequence, ER, Activity diagram). Consulting and provide solutions to the problem.

• Great team player and manage team by following scrum model and working on tools (jira, trello, kanban).

• Git (git flow, gitlab, github), SVN. Review code.
• Research & read English documents

WORK EXPERIENCE

MOBILE TEAM LEAD & FLUTTER DEV & REACT - NATIVE
11/2020 - PRESENT (GOLDEN OWL & GO GAME)
• Setup CI/CD for Flutter app. Build Flutter Core Project, Mobile Development & Delivery Process and Mobile App Feature Bank, training.
• Experience in automation testing: unit tests, widget tests and integration tests
• Worked with firebase Authentication, Cloud Firestore, Storage, Crashlytics, Analytics, Dynamic Links, Deeplink. Flamelink CMS to manage Firebase DB. Video call/chat with 3rd party Agora & firebase.
• Blockchain-dApps-NFT: call smart contract with web3dart, WebSocket, connect eth network, get balance,... connect app wallet (Metamask, Trust,..) with Walletconnect.
• Experience in publish the application on Apple Store (IOS) and Play Store (Android): more than 10 apps.

FLUTTER DEV
09/2019 - 06/2020 (DFM Engineering)
• Architect Flutter project using Bloc, Provider and Mobx, Clean Architecture, DI (getIt), Reactive programming (RxJava, RxDart).
• Embed flutter in android native app, plugin.
• Integrate payment module: Momo, VNPay, Mpos.
• Custom widget, canvas, animation,...
• Manage database using Firestore, Cloud Storage, Sqlite,..
• Worked with 3rd party such as Rxdart, Dio, Chart,...
• Worked with google API such as firebase, google drive, google fit, google maps...

ANDROID/ ReactNative DEV & PM
10/2017 - 10/2020 (DFM Engineering)
• Android JAVA - KOTLIN : MVC MMVM, sqlite storage, rxjava2 retrofit2, multi-thread, restful api.
• Modudles native java : Sevices Gps, Xprinter, reader, Card NFC, Qr Code code and momo, OTP, Notification ...vv.
• React Native: View, redux, react-redux, state, props, modal, asyncstorage,react navigation, sqlite storage, restful api.
• Apply MVP pattern, JSON data, Restfull API, multi-thread, unit test, Push Notification GCM, FCM, Redux (RN), RoomDB, SQLite,..
• Management flowing the scrum model, task management tool (Jira, Trello), review code, estimate project time and cost.

BA & WEB
08/2016 - 9/2017 (LIMCOM)
• Web/App - canthoford.org . Using Nodejs - Php Laravel - HTML/CSS/JS for FE.
• Database, SQL admin query data, create table & write store procedure.
• Build cross-platform Bootstrap integrated UI on mobile web.
• Use node js api restful build deploy CI/CD web heroku.

PROJECTS

PP--- (DAPPS)

• Position: Dev

seApplicafion.forlusesmio
bioask
application. NFTs, mint NFTs.
• Technology:
- Flutter, Flutter web, BloC-Provider, Clean architecture
- Web3dart, call to smart contract, get balance,.. connect to Wallet (WalletConnect, Trust, Metamask).
- Firebase Authen, Cloud Firestore, Storage, Crashlytics, Analytics, Dynamic Links. Use Flamelink CSM for firebase database.

KS PAYPONT

Position: Dev
• Utility applications automatic washing, chat
support,..
• Technology: Flutter, Flutter web, BloC
Providers, firebase deep linking, cloud firestore, Crashlytics, Analytics, api.

ALO SHIP 99

• Position: TEAM LEAD.
• This is an application to book motorbike taxis, order, buy for yourself.

- Flutter, Google Maps api, BloC - Provider, Clean Architechture using push notification onesignal custom service extension java and switch.

VIETNAM'S SUPPLEMENTS

• Health apps curated to create pharmacy locations and pick up prescription.
• Technology:
- Flutter, BloC-Provider, Clean architecture,
- Login with facebook, google, apple id, chat socket.
- In-app purchases: Vn Pay.

GoPlay

• Position: Developer, Sub Team Leader
• Application product for buying and selling games
• Technology:
- Flutter, BloC-Provider, Deeplink, Play game, Photon SDK with social networking, application Flutter.

Trum Gop

• Position: Developer, Sub Team Leader
• E-commerce application for buying and selling cars payment vnpay, in Vietnam
• Technology:
- Flutter, BloC-Provider, Deeplink, Play Games, Photon SDK with social networks, Flutter app.

PROJECTS

ANDROID - IOS

WESOLO - TRAVEL

Position: Dev
• Client's country: Ireland
• Industry: Tourism and Local
• Travel and chat apps, support, ..
• Project Outsource We solo:
• Technology: Kotlin
Vendor, firebase federated, cloud
firestore, Crashlytics, Analytics, api.
Website: https://wesolo.com/
https://goldenowl.asia/portfolio/we-solo

EXPIWELL

Position: Dev
• Client's country: West Lafayette, US.
• Industry: Education.
• Project Outsource ExpiWell App.
• Technology: Java
• Market researchers, polling companies,
and social scientists want your valuable
 opinions and experiences.
• Using our app, you can send in your
experiences and opinions. We have real
surveys that you can take.

SATECO ECAPT

Position: Dev
• Client's country: France.
• Industry: Serving production.
• Project Product E.CAPT
application.
• Technology: Java
• New system pressure E.CAPT connection.
• The function of measuring deviation of
cement connect usb serial port to
get data from arduino device displayed
on the user interface including height
, battery of the device, deviation of cement.

REACT - NATIVE

SMARTBUS APP

Position: Dev
• Client's country: Ireland
• Industry: Tourism and Local
• Travel and chat apps, support, ..
• Project Outsource We solo:
• Technology: Kotlin
Vendor, firebase federated, cloud
firestore, Crashlytics, Analytics, api.
Website: https://wesolo.com/
https://goldenowl.asia/portfolio/we-solo

DELEGATE CONNECT

Position: Dev
• Client's country: Melbourne, London and Norway.
• Industry: Provide end-to-end virtual
and hybrid conferencing
solutions to events globally.
• Project OutSource DC application.
• Technology: React - Native
• Using react-native and redux-toolkit
apply createAsyncThunk and createEntityAdapter
handle api and redux persist,
I handle display menu depending on
return api, handle talks, video, question, resources.

NOTEJS - LARAVEL

• Position: Analyst & developer
• Landing page introducing the group and
business group products and more
ford car sales landing page templates.
• Technology: HTML / CSS / JS, Bootstrap,
Mailchimp, backend.
